
Installing and Activating the Software

Welcome to the Pacesetter Simply Appliqué system for embroidery machines.

This Installation Guide outlines what you need to know to get started with Pacesetter Simply Appliqué - the minimum system requirements, how to install the software, and how to activate the program once it is installed.

System Requirements

Specifications are subject to change without prior notice. For additional information on setup and system requirements, contact your distributor.

Recommended System Requirements:

- Genuine Intel Pentium IV, 2GHz PC computer (or higher) with a CD-ROM drive
- Monitor 1024x768 video resolution with 16-bit color display (or higher)
- Microsoft® Windows® 7, Windows® 8 or Windows® 10 operating system
- 1 gigabyte of RAM
- Minimum 1 gigabyte hard disk drive space available

The Software Activation Number

In your Pacesetter Simply Appliqué package, you will have been given a software activation serial number. Use this number to activate your software once it is installed.

Please note that, while this is a single user license, the program does allow you to activate the software on two computers that you own and operate.

Installing Pacesetter Simply Appliqué

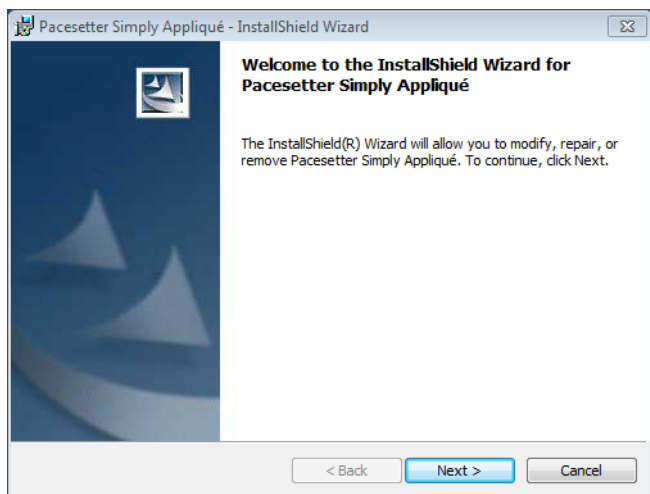

You must be running Windows® 7/8/10 to install Pacesetter Simply Appliqué.

To install Pacesetter Simply Appliqué:

- 1 Insert the Pacesetter Simply Appliqué CD-ROM into the computer's CD drive.
- 2 After a few moments the Pacesetter Simply Appliqué Install dialog screen will display.

- 3 Click on "Install Pacesetter Simply Appliqué Software."
You will see the InstallShield introductory screen.

- 4 Click Next to proceed with the installation.
You will see the License Agreement dialog.
- 5 Check the radio button next to "I accept the terms in the license agreement" and click next to continue.
- 6 Follow the instructions on each screen; the InstallShield Wizard will then install the software on your computer.
The Pacesetter Simply Appliqué icon  will now appear on your desktop.

Activating Pacesetter Simply Appliqué

In order to use the Pacesetter Simply Appliqué software (once it is installed), you must Activate it first. The activation Wizard will quickly and easily lead you through this activation process. You can choose one of the following options to obtain a license:

- Using an activation serial number (requires Internet connection).
- By obtaining a site key from Technical Support (for computers without a connection to the Internet).

Activating Pacesetter Simply Appliqué via the Internet

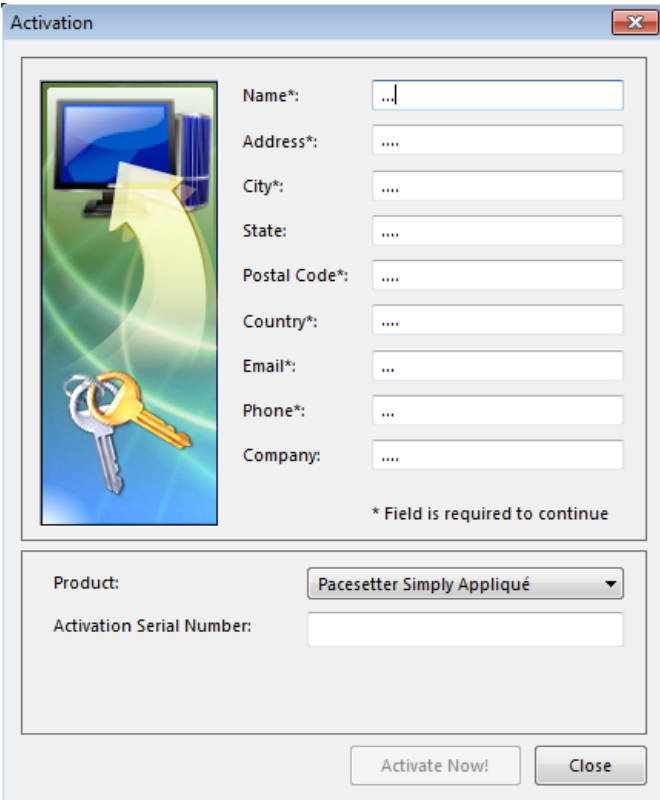

If the computer on which you are installing Pacesetter Simply Appliqué has an internet connection, all you need for your activation is the activation serial number that came with your copy of the software.

To obtain an activation over the Internet:

1 Do one of the following:

- ♦ Double-click the Pacesetter Simply Appliqué  icon on your desktop.
- ♦ Choose Start—All Programs—Pacesetter—Pacesetter Simply Appliqué.

You will see the activation screen.

Activate Now! Close

- 2 Fill in the required activation information in the appropriate fields.

Fields marked with an asterisk (*) are required - your software will not be activated otherwise.

- 3 Type your individual activation serial number (that came with your copy of Pacesetter Simply Appliqué) into the Activation Serial Number field.
- 4 Click the Activate Now button on the dialog.
Pacesetter Simply Appliqué will open.

Activating Pacesetter Simply Appliqué without an Internet Connection

If you have installed the software on a computer that does not have an internet connection, you will need a site key (in addition to the activation serial number) to complete the activation.

To obtain the activation code, please contact Brother Customer Service; either by telephone at 1-877-276-8437, or by email at hadsupp@brother.com. Please enter the product name in the subject line, and the activation serial number and site code in the body of the email.

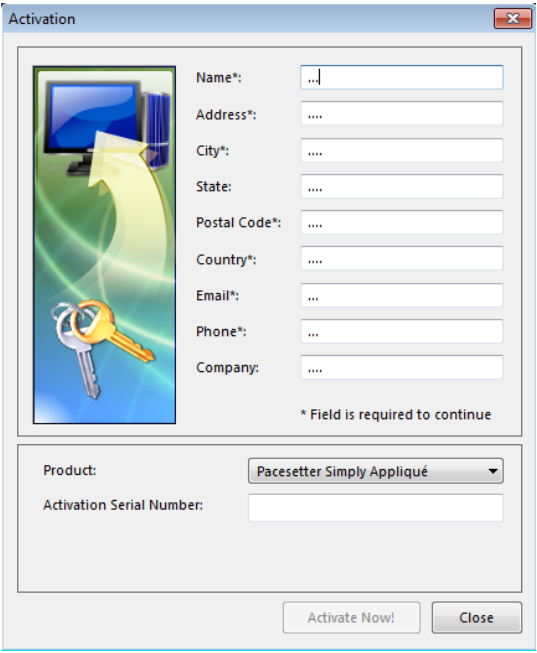

For customers outside the United States, please contact your distributor.

To obtain an activation without an internet connection:

1 Do one of the following:

- ♦ Double-click the Pacesetter Simply Appliqué Icon on your desktop.
- ♦ Choose Start—All Programs—Pacesetter—Pacesetter Simply Appliqué.

You will see the activation screen.

The Activation dialog box contains a graphic on the left showing a computer monitor, a yellow arrow pointing from the monitor to a key, and the key itself. To the right of the graphic are input fields for the following information:

- Name*: [text box]
- Address*: [text box]
- City*: [text box]
- State*: [text box]
- Postal Code*: [text box]
- Country*: [text box]
- Email*: [text box]
- Phone*: [text box]
- Company: [text box]

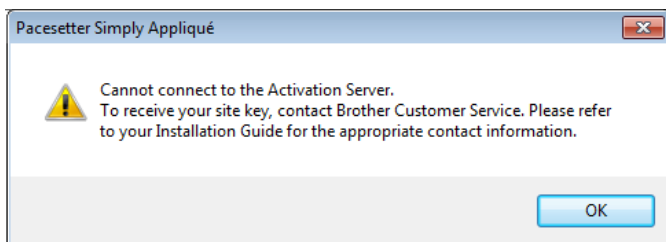

Below these fields is a note: * Field is required to continue. At the bottom of the dialog, there is a dropdown menu for 'Product' (currently showing 'Pacesetter Simply Appliqué') and an empty text box for 'Activation Serial Number'. At the very bottom are two buttons: 'Activate Now!' and 'Close'.

- 2 Fill in the required activation information in the appropriate fields.

Fields marked with an asterisk (*) are required - your software will not be activated otherwise.

- 3 Type your individual activation serial number (that came with your copy of Pacesetter Simply Appliqué) into the serial number field.
- 4 Click the Activate Now button on the dialog.
You will see the following warning message:

- 5 Contact Technical Support; they will give you an activation code.

To obtain the activation code, please contact Brother Customer Service; either by telephone at 1-877-276-8437, or by email at hadsupp@brother.com. Please enter the product name in the subject line, and the activation serial number and site code in the body of the email.

For customers outside the United States, please contact your distributor.

- 6 Click OK to dismiss the warning message.

The Activation dialog now displays a new Site Code and Site Key fields.

Activation Serial Number:

Site Code:

Site Key:

- 7 Enter the activation code you received into the Site Key field.
- 8 Click the Activate Now button.
Pacesetter Simply Appliqué will open.

Deactivating the Software

Once it has been activated, it is possible to deactivate the software by re-opening the activation dialog.

Deactivation frees up your current Activation code so that it can be re-used; when you deactivate the software, it will no longer work on that computer, but you will be able to transfer it to a different computer, without requiring the purchase of an additional license number.

You will be able to deactivate and reactivate your serial number up to six times.

You must be connected to the internet order to deactivate.

To deactivate Pacesetter Simply Appliqué:

- 1 Click the “Open License Activator”  icon on the top-right corner of the workspace.
The Activation Dialog will open, displaying the user’s personal information and the Activation code.
- 2 In the dialog, click Deactivate.
*The Activation dialog will close, and the copy of the software on the current computer will now be deactivated.
You may now use the Activation code to activate the software on a different computer.*
